Pairs

Age:  2 years and up

What’s needed
Items that come in pairs (Inside or outside)

What to do
1. Talk to children about what the term “pairs” means.
2. Ask children to look for items that come in pairs.
3. Children can gather the items, draw them, or you can write them in a list.
4. Play a game where children match the items, or children can hide one item from the pair and ask another child to find it.

What children will learn
Math skills, observations skills, matching skills
